

As shown in the before and after photo, the fixtures are placed quite high in the ceiling. Replacing HID lamps is a costly and laborious process, they have relatively short lifetimes making them difficult to maintain. LEDs commonly last 4 times longer than HID lamps which reduces the time you spend maintaining your lighting system and money you spend on new lamps!

Integra LED works with a variety of businesses ranging from manufacturers to medical spaces across the Northeast. On average, our customers save up to 70% on lighting cost that shows up directly on their utility bill. If you are interested in saving with LEDs, fill out the short form below! This form will connect you with one of our team experts who will help you get started on your lighting upgrade.
